Sanlam Data & Digital Academy
Sanlam Group

Dear Sanlam Group Acquisition Team,

Application for Graduate Program at Sanlam Data & Digital Academy 2025

I am excited to submit my application for the Graduate Program at the Sanlam Data & Digital Academy 2025. As a final-year student pursuing a BSc in Computer Science and Informatics at the University of Johannesburg, I have developed a strong foundation in software development, data analysis, and digital technologies. My academic journey, coupled with practical experiences, has equipped me with the skills and passion necessary to thrive in the dynamic environment at Sanlam.

Academic and Professional Background

During my tenure at the University of Johannesburg, I have not only excelled academically but also taken on leadership and mentoring roles. Serving as a Residence Academic Advisor at UJ Sophiatown, I guided students towards academic success and fostered a supportive learning environment. My hands-on experience in Android application development and Java programming, acquired through internships with CodSoft, demonstrates my ability to apply theoretical knowledge to real-world scenarios effectively.

Skills and Experiences

My technical expertise spans multiple programming languages, including Java, C++, Visual Basic, and SQL. I have also honed my web development skills using HTML and CSS and specialized in React Native for mobile app development. As a dedicated tutor for first and second-year Computer Science students at UJ, I have cultivated strong communication and teamwork skills, enabling me to explain complex concepts clearly and collaborate efficiently.

Why Sanlam?

The Sanlam Group's commitment to innovation and excellence resonates deeply with my career aspirations. I am particularly impressed by Sanlam's focus on leveraging data and digital technologies to drive impactful solutions. The opportunity to join the Sanlam

Data & Digital Academy is incredibly appealing as it aligns perfectly with my goal of contributing to technological advancements within a leading financial services group.

Why Consulting and Technology?

My enthusiasm for consulting and technology stems from the dynamic nature of the field and its potential to create transformative solutions. The prospect of tackling diverse challenges and delivering impactful results in a fast-paced environment excites me. My analytical mindset, combined with my technical skills and problem-solving abilities, positions me well to thrive in this domain.

Conclusion

I am confident that my background, skills, and passion make me a strong candidate for the Graduate Program at the Sanlam Data & Digital Academy. I am eager to contribute to the Sanlam Group and further develop my expertise in data and digital technologies. Thank you for considering my application. I look forward to the possibility of discussing how I can contribute to Sanlam's continued success.

Sincerely,

Mulisa Mavhina
